Zoom

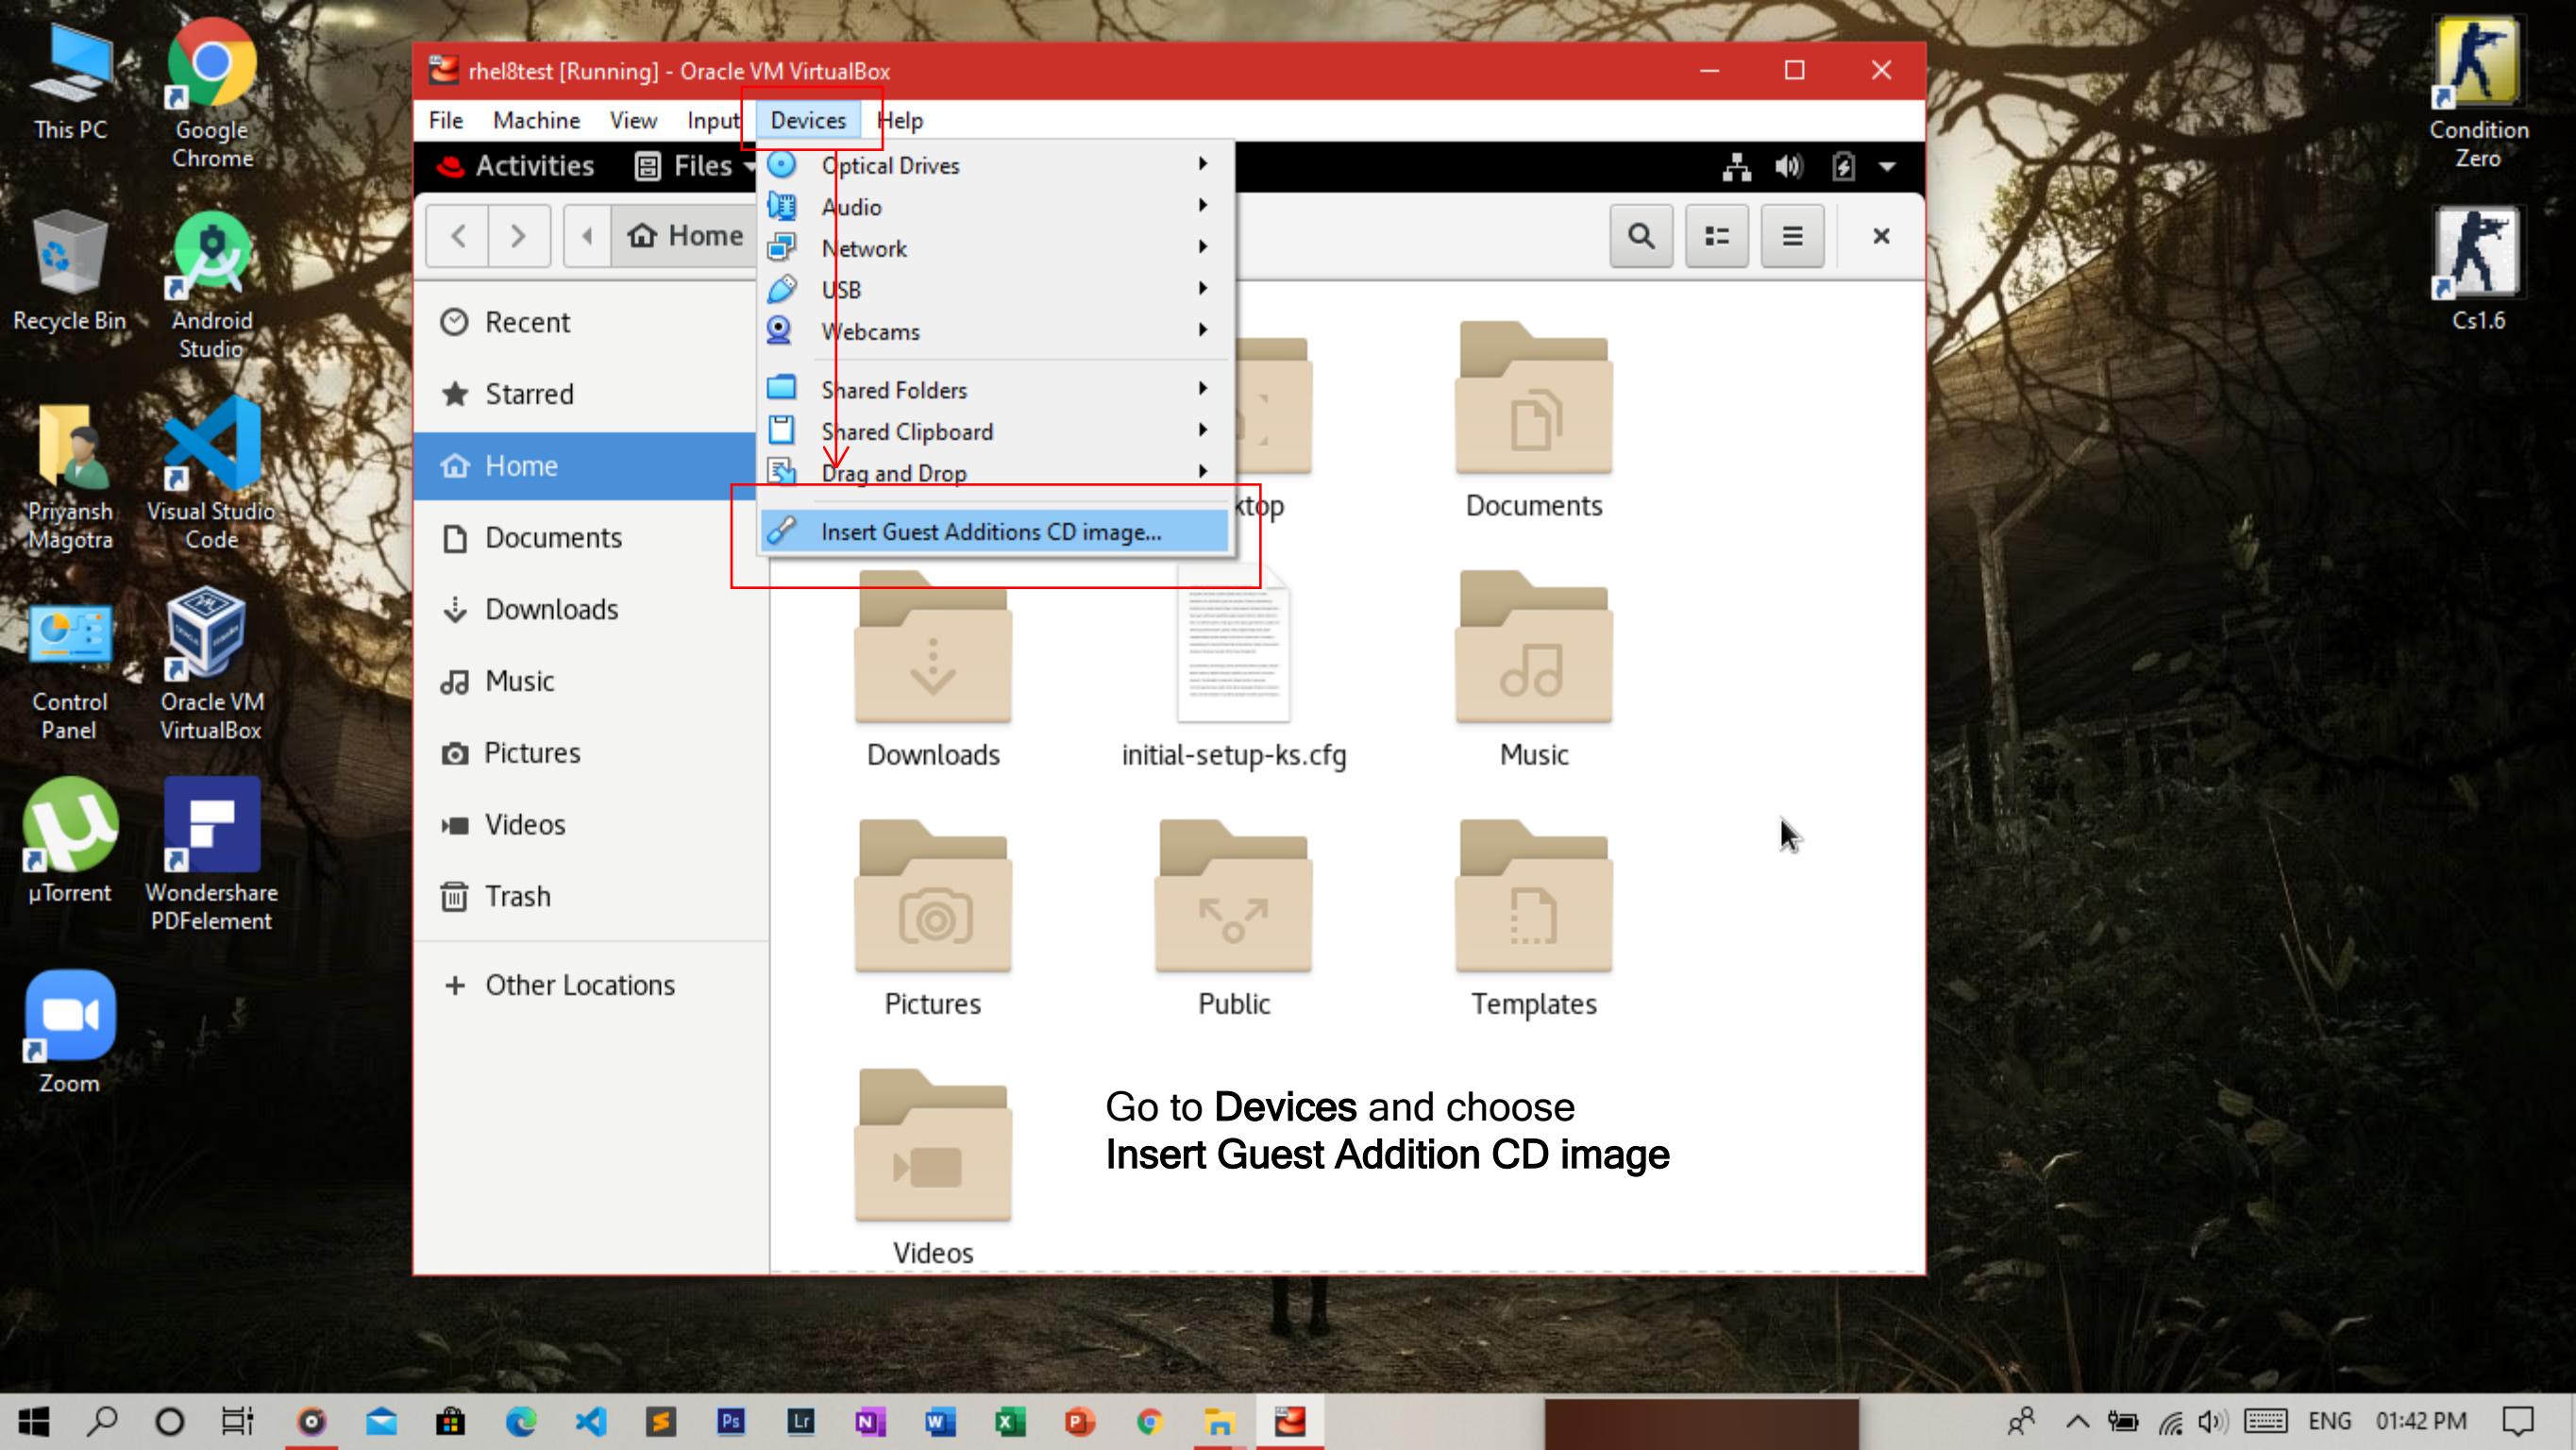

Condition Zero

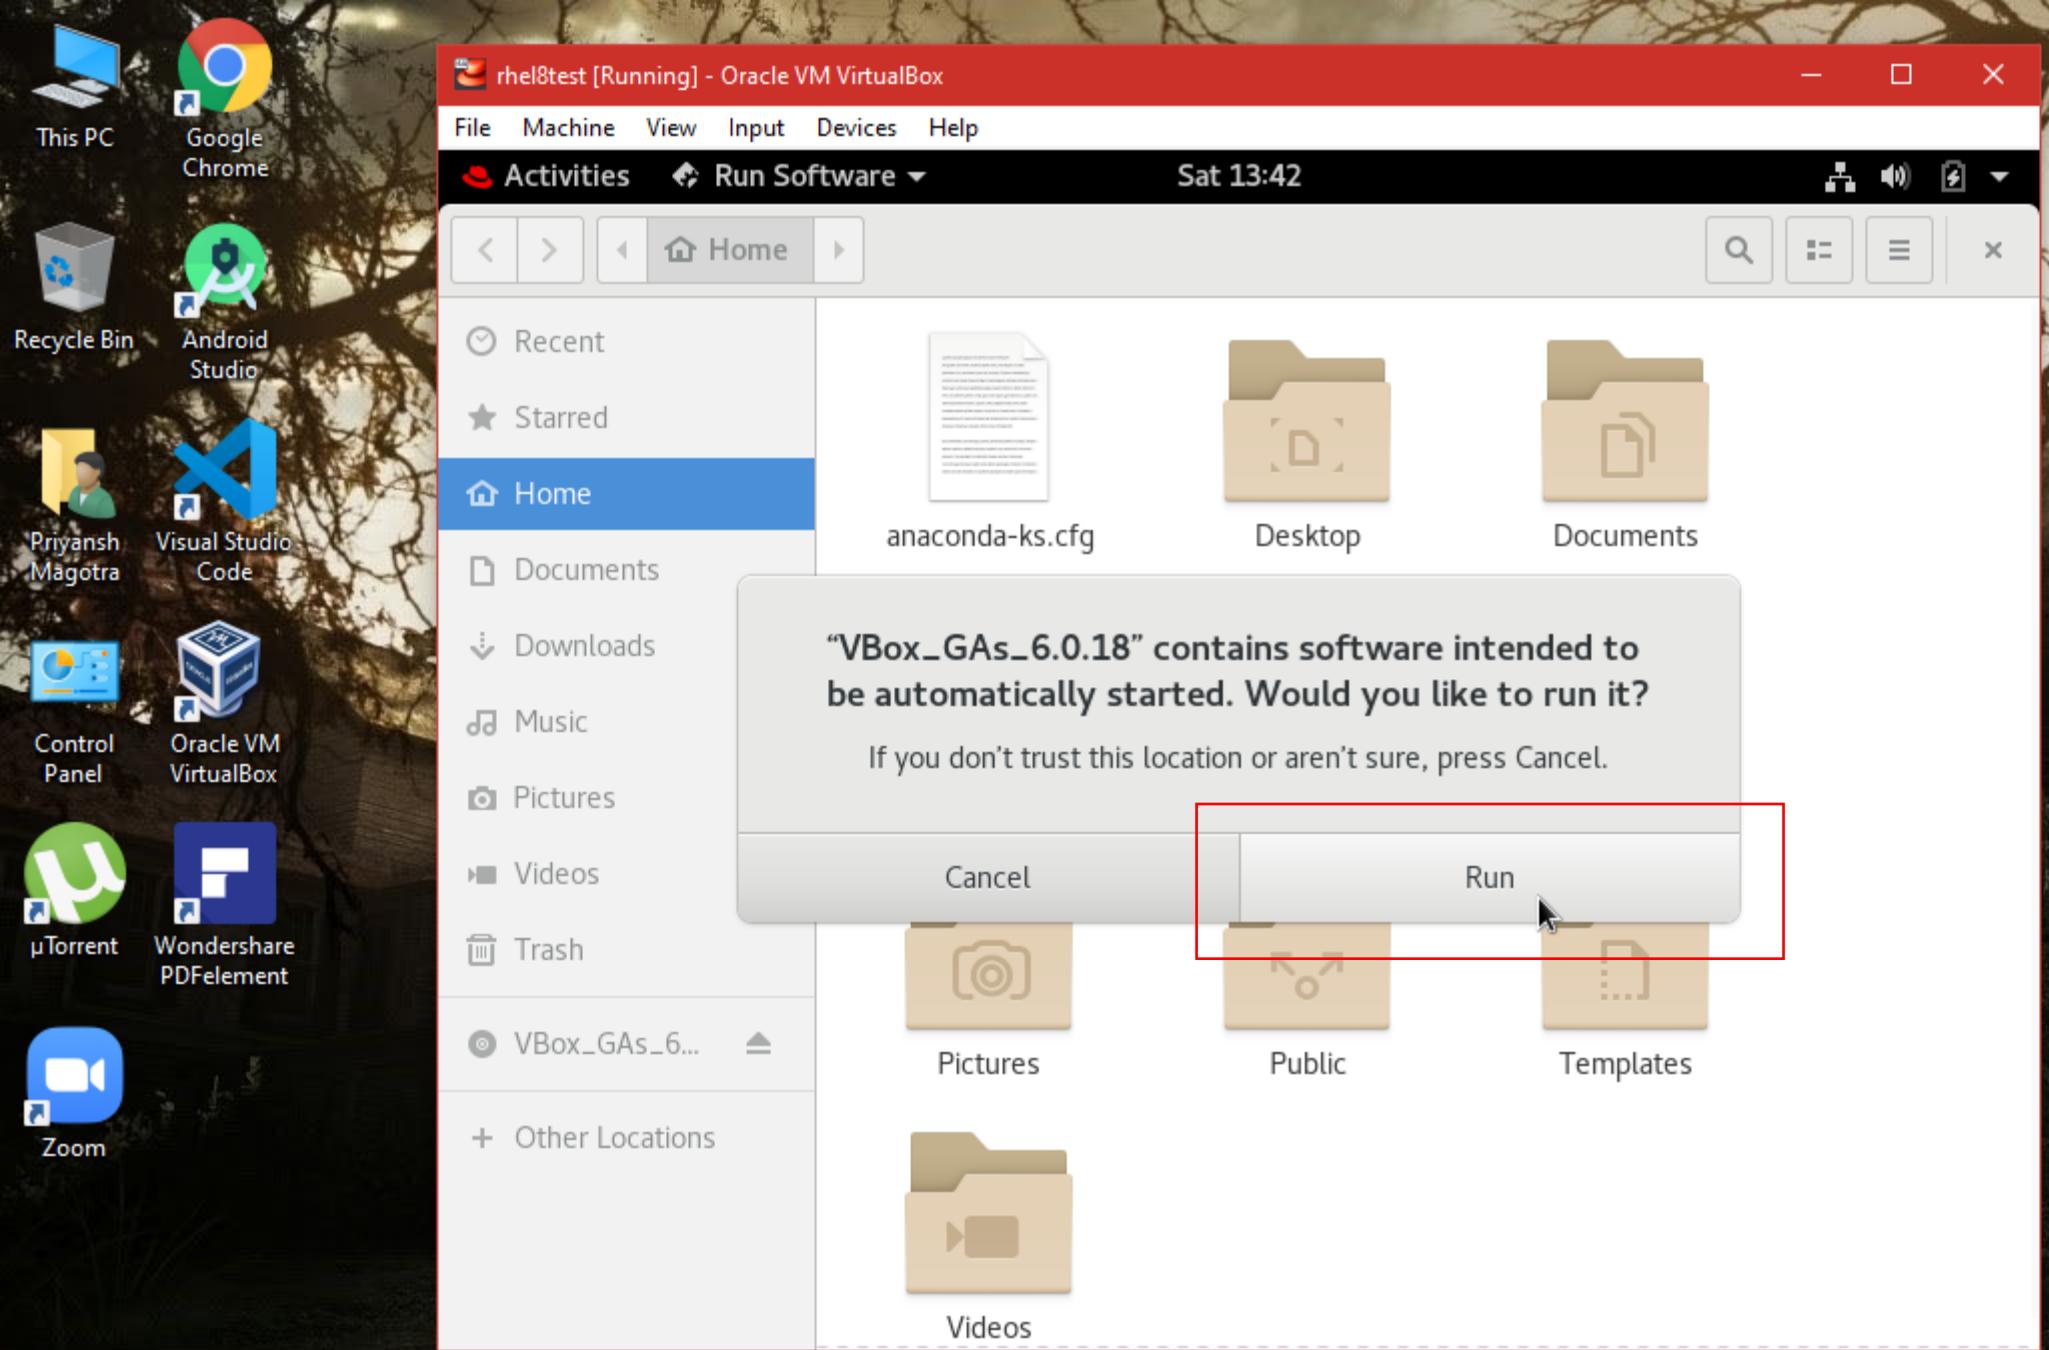

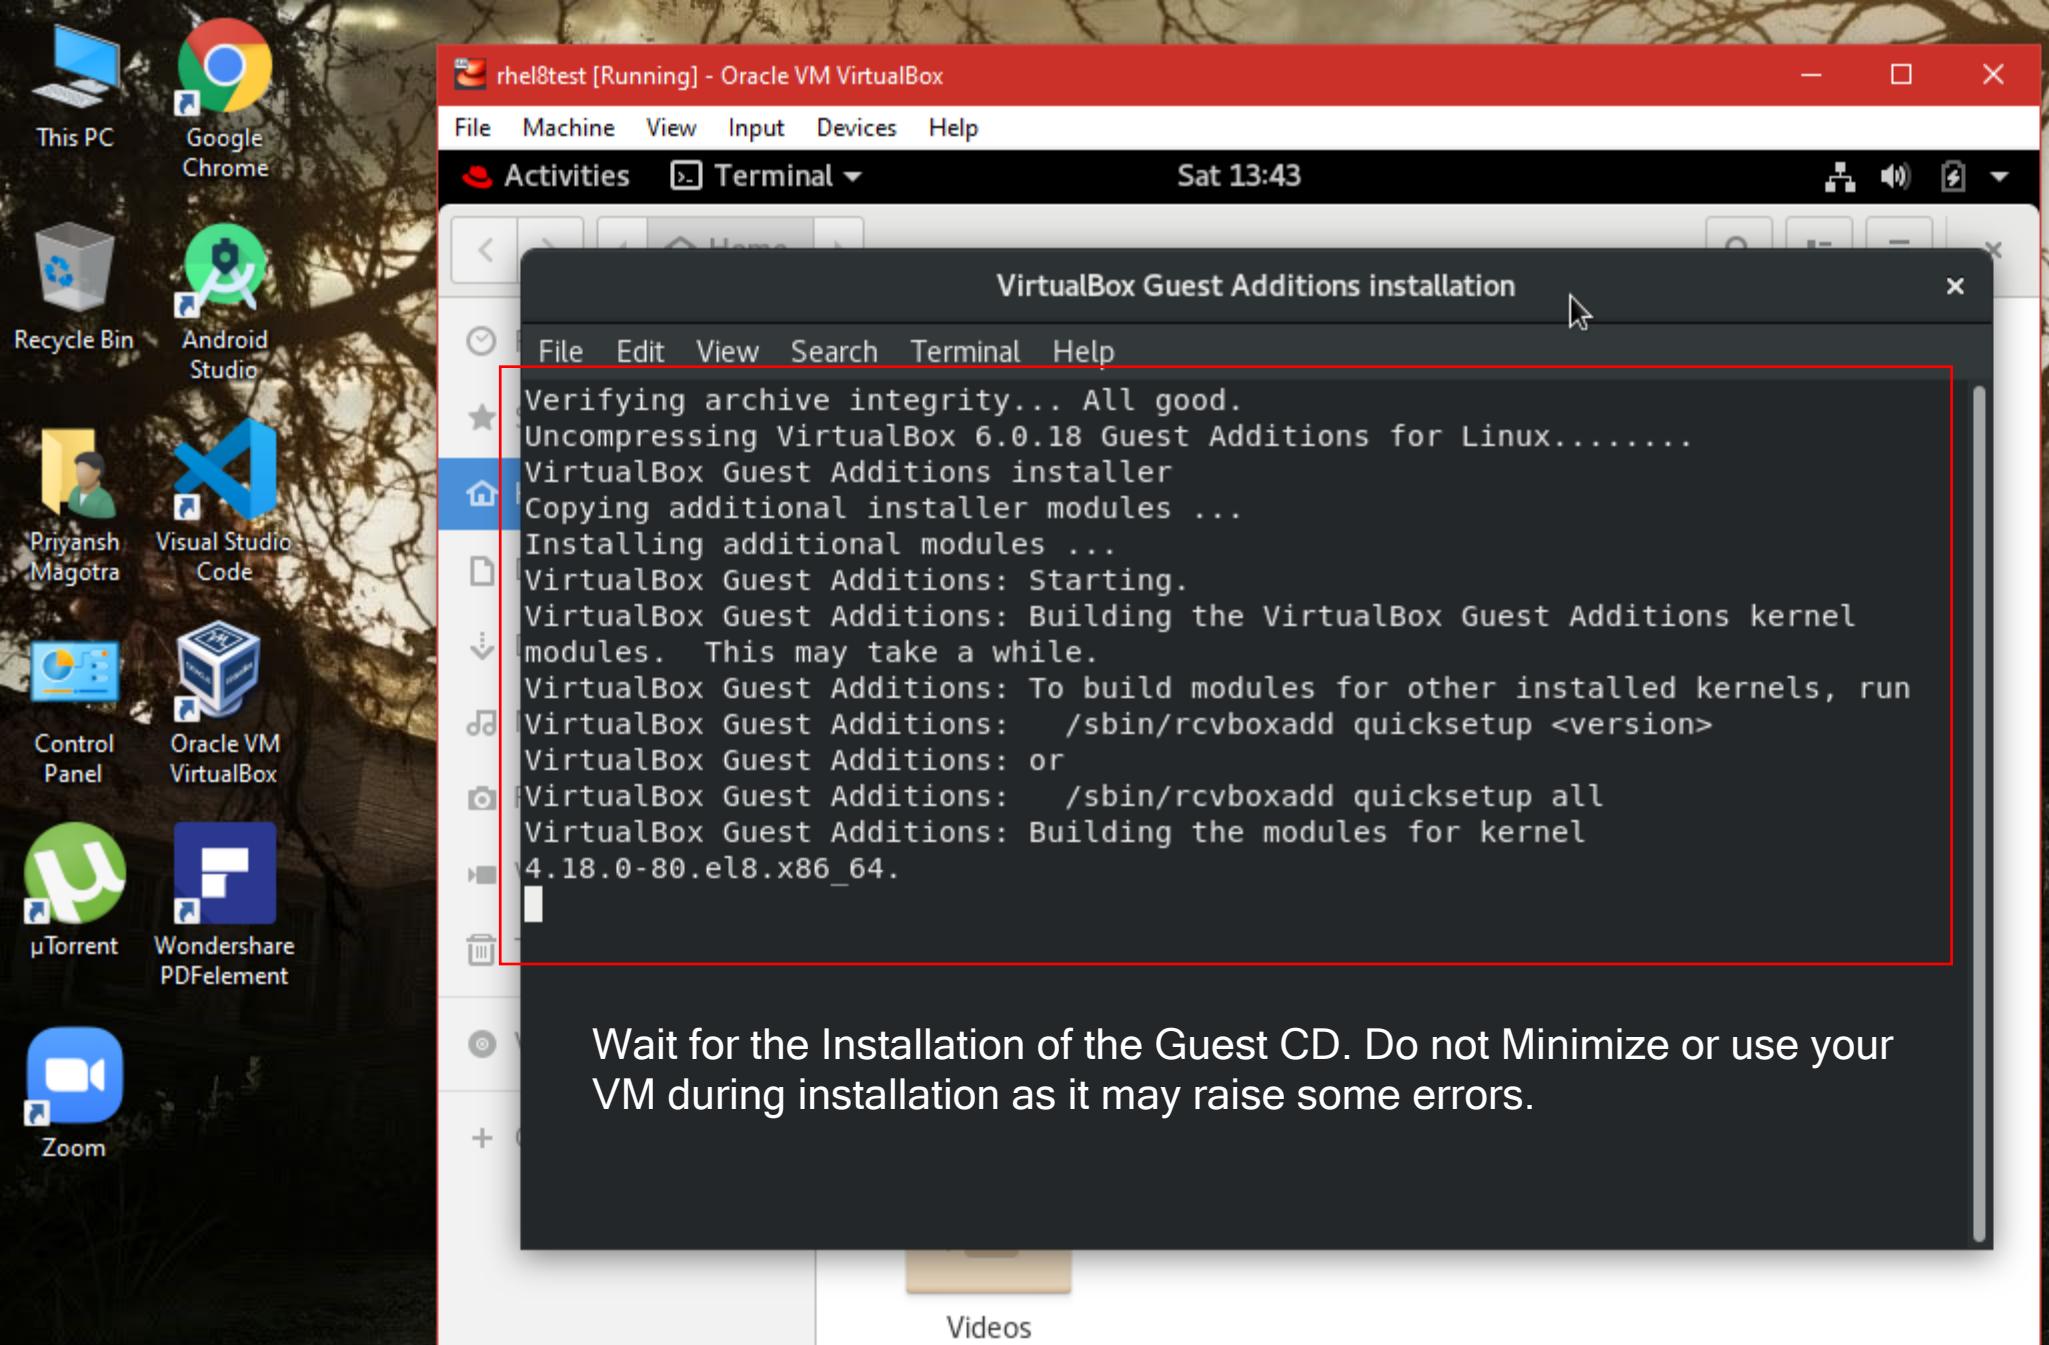

Cs1.6

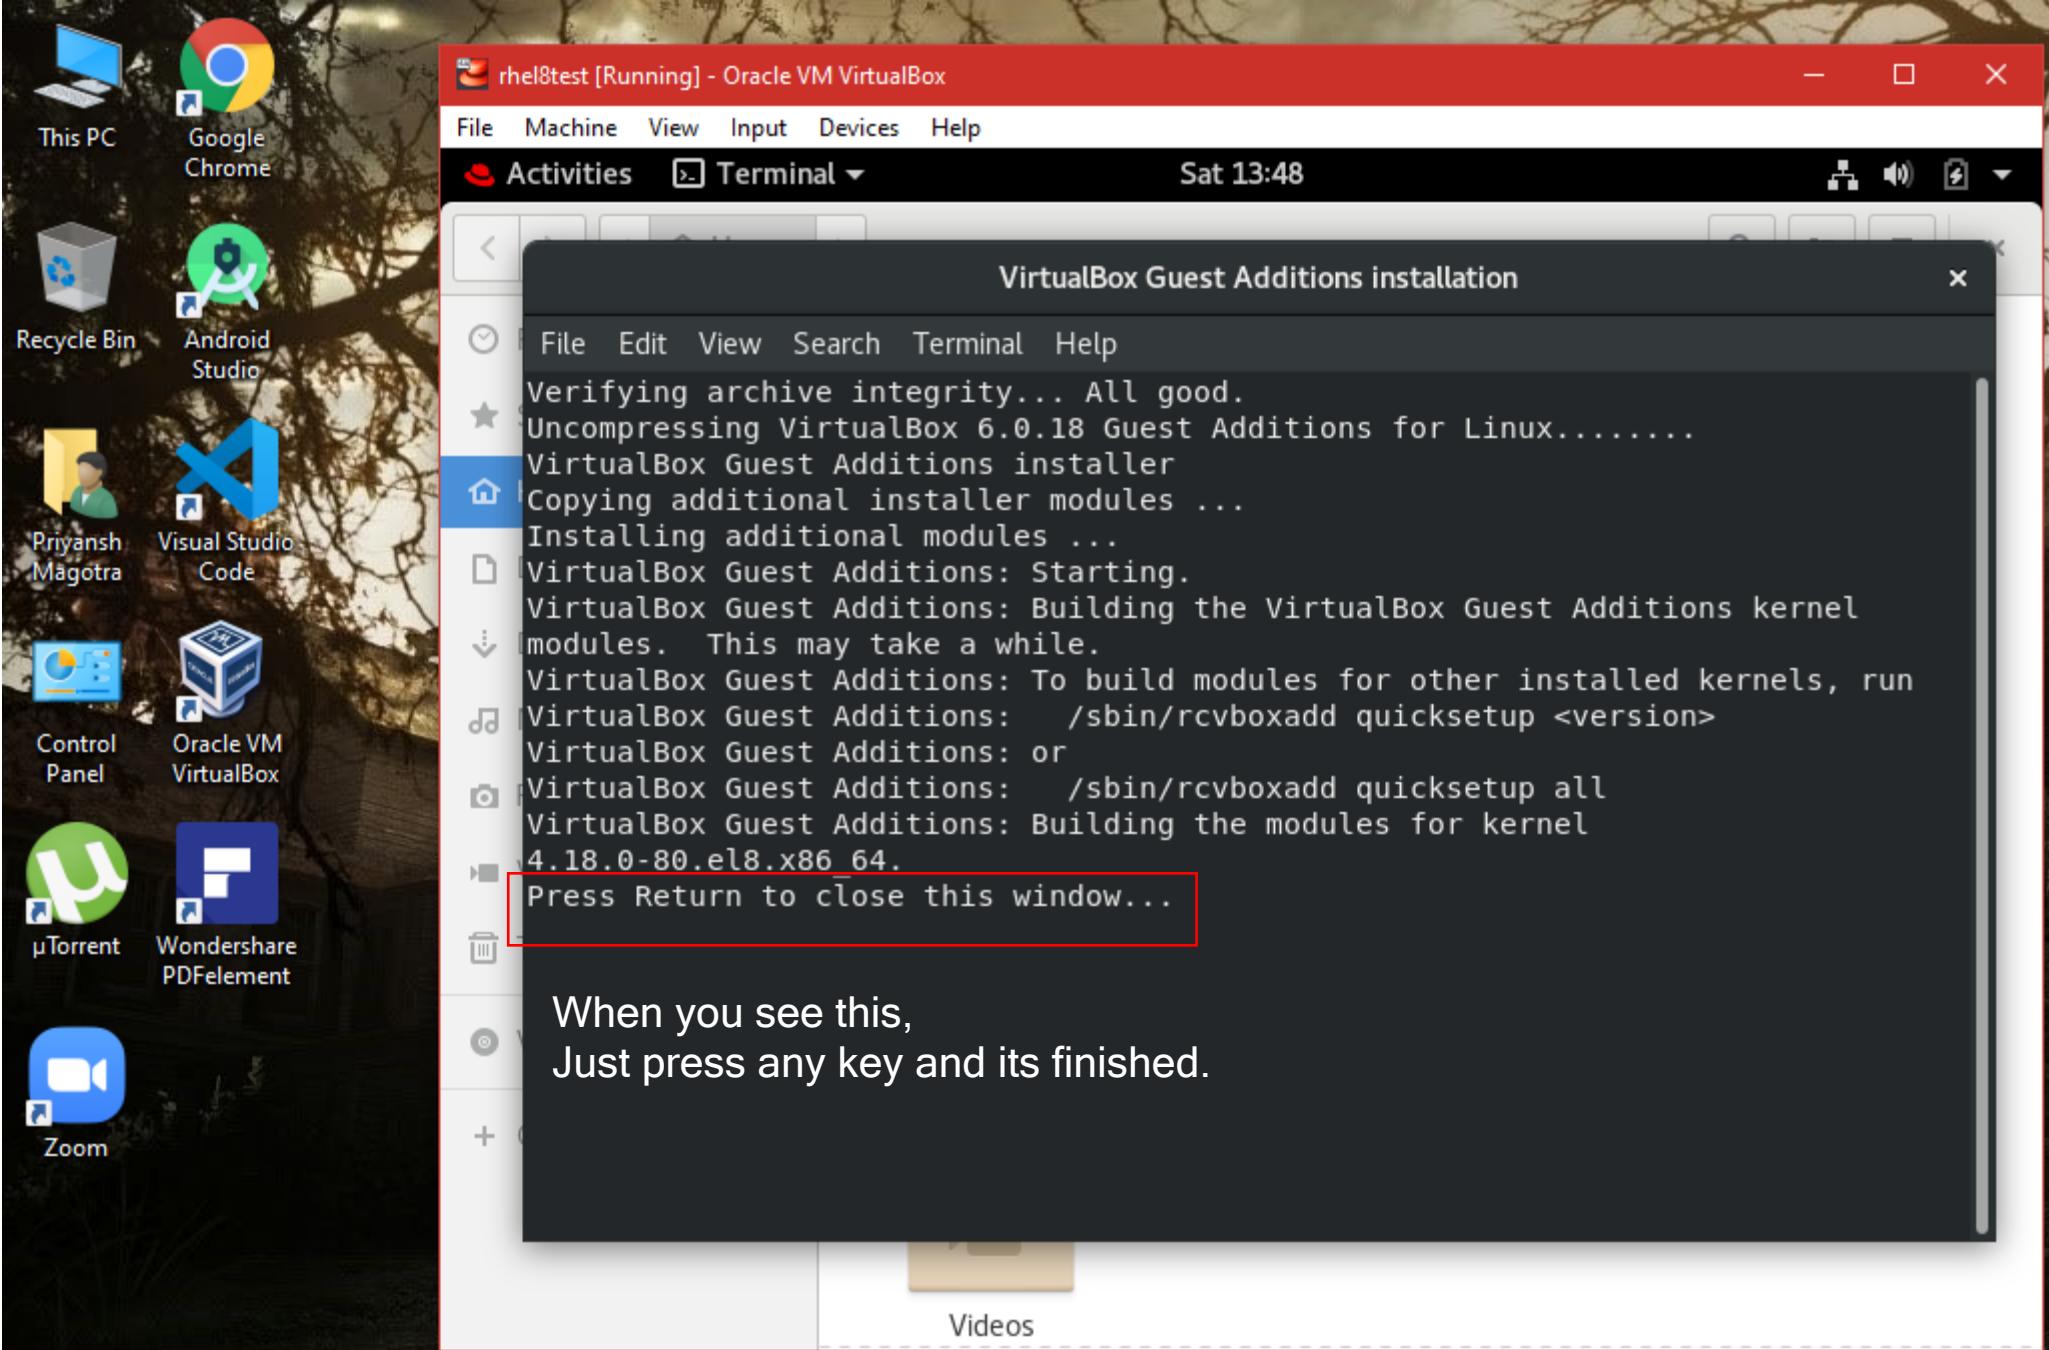

Go to Devices and choose
Insert Guest Addition CD image

Condition
Zero

Cs1.6

Now Press **ctrl+f** and your VM will scaled to full Resolution
and your mouse movements will be smoother than before.
You can also switch your mouse from
VM to Bare Metal without pressing right ctrl key

If **ctrl+f** doesn't work in your case,
just simply go to **settings** and choose your preferred resolution their.
